

Create a IBM Watson IOT platform and device

Team ID	PNT2022TMID15698
Project Name	Project - SMART WASTE MANAGEMENT

Step 1: Login into IBM CLOUD account.

Step 2: Click on catalog and search for IOT platform.

Step 3: Then search for IOT Watson platform then click on create.

Step 4: Then click on add device and give the device type and necessary details then click finish.

Step 5: Finally, IOT Watson platform is successfully created.

The screenshot displays the IBM Watson IoT Platform interface. The browser address bar shows the URL: `kh1l6s.internetofthings.ibmcloud.com/dashboard/devices/drilldown/swms:37855?returnTo=/devices/browse`. The page title is "Device Drilldown - 37855". On the left, a sidebar menu lists various options: Device Credentials, Connection Information (selected), Recent Events, State, Device Information, Metadata, Diagnostics, Connection Logs, and Device Actions. The main content area is divided into two sections. The top section, "Connection Information", provides basic details about the device: Device ID (37855), Device Type (swms), Date Added (16 Nov 2022 11:37), Added By (iswa19213.cs@rmkec.ac.in), and Connection Status (Disconnected). The bottom section, "Recent Events", includes a description: "The recent events listed show the live stream of data that is coming and going from this device." Below this description is a table with four columns: Event, Value, Format, and Last Received. The table is currently empty.

Event	Value	Format	Last Received
-------	-------	--------	---------------
